Professional Experience

Fullstack Developer

Cloud dreams | 2024 - Present

- As a Full Stack Developer, I led complete development cycles, harmonizing frontend and backend elements to deliver resilient web applications. I collaborated across teams, refining code for optimal performance and scalability

- Integrated third-party APIs and services: Leveraged various APIs and external services to enhance functionality and enrich user experience within web applications.

Frontend Developer

Segolsys | 2023 - July - Dec

- Collaborated with senior developers to design and implement user interfaces for web applications, focusing on usability and responsiveness.
- Utilized HTML, CSS, and JavaScript to create visually appealing and interactive frontend components, ensuring seamless user experiences across different browsers and devices.
- Worked closely with designers to translate mockups and wireframes into functional frontend code, paying attention to

PROJECTS

- **Blog Page -** Createing a dynamic blog platform allowing users to perform CRUD operations on blog posts. React.js is used for the frontend to deliver interactivity, while Node.js handles backend logic. MongoDB serves as the database for storing and managing post data.

- **Motorcycle Website -** Enhance the existing Jawa Motorcycle website for direct dealers, focusing on Shreedhanam Motor showroom. Built with React.js, the site streamlines inventory management, buyer communication, and showcases latest Jawa offerings.
